## PRESS RELEASE

---

### **E-INFO SOL PARTNERS WITH EMPLOY PG AND 2U TO HELP PG COUNTY RESIDENTS**

E-INFO SOL LLC is pleased to announce their partnership with Employ PG and 2U to assist with the Access 2 Education Scholarship Fund. This fund will provide scholarships to Prince George's County residents to build Prince George's County's pipeline of Information Technology and Cyber Security talent and put high-quality training programs within reach of our diverse residents. The Access 2 Education Scholarship opens the doors to historically underrepresented candidates to gain access to 2U's career accelerating boot camps in Coding, Data Analytics, UX/UI, Cybersecurity, and Fintech through local universities like Johns Hopkins University and George Washington University.

*"As a Minority Owned Information Technology (IT) small business with Headquarters in PG County Maryland, it is an honor and privilege to partner with Employ PG and 2U to provide PG county residents with advanced technological training and resources. We are passionate about helping others and making sure every resident has the same opportunity to obtain a career in high demand IT professions."* - Fredy J. Pesante, President E-INFO SOL LLC

E-INFO SOL specializes in building modern and tailored solutions to support our customers' mission. As a mission-first organization, we deliver Subject Matter Expertise (SME) in cloud computing, virtualization, cyber security, software development and data services. We support the Intelligence Community, Department of Defense, Federal Law Enforcement, Civilian Agencies and the Private Sector.
